OEM SOLUTIONS – CONCEPT TO HEALTHY CREATIONS

1. *Unique qualified ingredients:* our collagen peptides and gelatin are sourced from our sustainably-raised, tropical, freshwater fish – a highly stable, fully traceable, single source for your finest wellness products
2. *Cutting-edge production facilities:* With OEM solutions from Vinh Wellness, we fully control the whole process to ensure exceptionally consistent product, ideally suited to the most demanding applications.
3. *Certified sustainability by the global certification bodies:* boost your sustainability profile by Vinh Wellness single source ingredients. This is something that adds value to innovative products and brands that you sell.

HA + COLLAGEN PEPTIDES + VITAMIN C, THE SECRET FORMULA FOR THE BEAUTY

This specialized beauty formula with the main ingredients of Vinh Wellness Collagen peptides, enhanced with hyaluronic acid (HA) and vitamin C (vitC).

Collagen and HA are two compounds naturally present in the skin, connective tissue and joints. They play important roles in maintaining skin beauty, healthy connective tissue and active joints. To maintain the skin elasticity and firmness, which can become imbalanced with aging, it is necessary to stimulate the body to synthesize these compounds. This formula can contribute to boost the body’s collagen reproduction to maintain healthy collagen balance in aging skin. The addition of HA helps to recover the natural moisture which is essential for the proper hydration of the skin.

Vitamin C is essential for collagen biosynthesis with quantitative and qualitative influences. The role of vitamin C in the collagen production is to hydroxylates (adds hydrogen and oxygen) to amino acids within collagen cell. This helps to form a precursor molecule called procollagen that is later modified into collagen.

The formula can be modified with other ingredients such as vitamins, micronutrients. The products can be in variety of form from powder sachet, tablet to capsule with customized delicious flavor.

We are promoting the OEM service that uses our Vinh Wellness collagen/gelatin for customer’s end products

Product	Formula	Customized Options	Form	Packing
Skin Beauty	Vinh Wellness Collagen + HA + Vit C	Other added nutrients Flavor (Peach, strawberry, Matcha, blueberry, etc.)	Powder, Tablet, Capsule	Bulk/retail
